WHAT THEY SAY THEY SAY.

The Charter gave us this.

The Ordinances say that,

And so between the two

Where's the Board of Council at?

The Mayor says the Charter—

Which is the longer pole—

With yard or green perimmons

Our old town hole.

But Stalekamp says the Mayor

Talking through his hat—

Tis thus the innings opens,

With Coxey at the tail!

WE'RE FOR AMERICA/AMERICANS!

Have some of our Democratic friends taken refuge in Mexico since their party's disastrous defeat in November? It looks like history was repeating itself, as Mexico was the Asylum for the old-time party after their defeat in '90. Verily, there's nothing new under the sun.

There are in Chicago, according to Commissioner KENT, 336 streets that look like well—that is to say, they are paved only with good intentions.—*Citizen Tribune*.

Just come down here and we'll show you streets that are not paved at all—and that never will be as long as the people have plenty of money to pay for mud and dust.

The foundation of the prosperity of the American farmer and the American laborer is the continued operation of the American factory. When the factories are extinguished nothing follows so surely as the enforced idleness of the laborer, and when this comes the home demand for the farmer's products is gone.

Our sales of fresh beef in the markets of the world, during eleven months of this year, were 23,000,000 pounds less than in 1894. Of all we sold 10,500,000 pounds less of bacon, 15,400,000 pounds less. We sold 3,250,000 pounds more pork, but got \$75,000 less money for the larger quantity; and we sold 25,000,000 pounds more lard for \$2,365,000 less money. These were two costly captures.

The Secretary of the Treasury, in his annual report, says the interest bearing debt of the United States, exclusive of the bonds issued in aid of Pacific Railroads, was increased \$112,315,700 during the twelve months ended November 1st, 1895. As these figures are made by so great a Democrat as JOHN G. CARLISLE, they may be accepted by the little corner-grocery Democratic politicians of the country.

WHEAT growers must not expect big things from the larger export movement in wheat that has recently occurred. We are still behind even the shipments of 1894 when they were very light. This crop year, from July 1st to November 30th, we exported \$17,500,000 bushels of wheat and \$20,000 barrels of flour less than in the corresponding months of 1894. The combined money loss was \$4,570,000.

THE LEDGER takes pleasure in calling the attention of ladies to the Order of General JOHN E. BORDEN printed elsewhere, asking aid in establishing a great Memorial Hall where will be deposited relics and mementoes of Southern history and valor. The day for bitterness has passed; we are all Americans, and the glory of the American soldier belongs not to the North or the South alone, but to the whole country—united and indissoluble.

Says:

"I do the heaviest

advertising in dull times."

"Then it is when people look most keenly for bargains and are anxious to know what things cost, and where they can save money. I advertise particular things, give prices, and take as much pains with my announcement as I do with my stock. One big dinner won't keep up the reputation of the big house—but steady, good cooking does it. I never permit interest in my announcements to lag, and never miss an issue in my chosen publications. Advertising has made my store one of the largest in the country."
